

# Midstream Solutions Pipelines, Terminals, Facilities, & Storage

ENGlobal is the industry leader in delivering solutions for the midstream energy sector. Our sole sourced skid mounted and integrated solutions improve safety, quality, and reduce project delivery time & cost.

ENGlobal has experience on a wide array of automation & SCADA platforms for both liquids & gas handling systems. Our experienced team provides the subject matter expertise required to successfully deliver your brownfield or grassroots capital investment.

With the support of our multi-discipline engineering team we can handle the rigors of the diverse engineering requirements to accommodate PHMSA compliance. Uniquely our sole solutions model includes engineering, design, programming, skid module fabrication, panel fabrication, and field commissioning & support.

- ⇒ Valve Station Automation
- ⇒ Valve Station Automation
- ⇒ Leak detection
- ⇒ Cathodic protection
- ⇒ Flow Measurement & Proving
- ⇒ Pumping Station Control & Optimization
- ⇒ Reciprocating & Turbine Compressor Controls
- ⇒ SCADA Monitoring
- ⇒ Rail & Truck Loading Stations & Scales
- ⇒ Lease & Custody Transfer Units
- ⇒ Tank farm Monitoring & Gauging
- ⇒ Remote Power Solutions
- ⇒ Environmental Monitoring
- ⇒ Cyber Fortification
- ⇒ Fence-line monitoring
- ⇒ Industrial Asset Monitoring - IIOT
